

Foundation Funding Opportunities  
Related to  
Building Rehabilitation,  
Energy  
and the  
Environment

Compiled by the U.S. Department of Energy  
Seattle Regional Office  
from FC Search® Version 4.0  
Spring 2002

The following list of foundation funding opportunities was compiled by the U.S. Department of Energy, Seattle Regional Office from The Foundation Center's Database on CD-ROM FC Search® Version 4.0. FC Search® 4.0 contains funding information on over 53,000 foundations and corporate giving programs. It is the year 2000 version. Please note that since this time, some of the foundations listed may have different fields of interest, contact info, etc. For more information on these funding opportunities, and the FC Search® database, go to: <http://www.fdncenter.org/>.

There are thousands of organizations accepting proposals for housing rehabilitation, energy and/or environmental projects; this list does not suggest that "the search stops here." Rather, our intent was to present a list of foundations that meet the following criteria: 1) Each organization identifies "Building/rehabilitation" as a type of support provided, i.e. they provide grants for constructing, renovating, remodeling or rehabilitating property; 2) Each organization identifies "housing," "energy," or the "environment" as a specific field of interest; 3) The stated purpose and activities of these organizations may align with potential housing projects related to energy and/or the environment; 4) Each organization funds projects nationwide or to specific states within the Western U.S. including AK, AZ, CA, HI, ID, NV, OR, and WA.

For more information on this publication, please contact Laurie Brown, Seattle Regional Office, at (206) 553-2158 or [laurie.brown@ee.doe.gov](mailto:laurie.brown@ee.doe.gov).
